

ES60 Ice Cube Machine

Up to 30kgs. (66.14 lbs.) daily ice production;
 14 kgs. (30.90 lbs.) ice storage capacity;
 Only 19.69" (50.00 cm) wide, 22.34" (56.74cm)
 deep, and 31.10" (79.00 cm) high;
 R-134A CFC-free refrigerant;

Features

- **Better Insulation for Longer Ice Storage**
 - Storage Bin liner is fabricated by rotational molding with polyethylene. Provides seamless and better insulation for longer Ice storage
- **CFC Free Refrigerant**
 - R-134A or R-404A, CFC free refrigerant
- **Easier to Clean and Maintain**
 - The under counters have front air intake and exhaust and an easy access door that slides up and out of the way
- **Easy Access Air Filter**
 - Easy access air filter designed for longer operation in greasy and dusty environments
- **Enhanced Refrigeration Efficiency**
 - CFC-free polyurethane foaming technology, better insulation for enhanced refrigeration efficiency while helping the environment
- **Save Water and Power**
 - Computerized control for shorter freezing time - saves water and improves power consumption and overall reliability

Technical Specifications

ES60 Ice Cube Machine

W x D x H	19 ¹¹ / ₁₆ " x 22 ⁷ / ₁₆ " x 31 ⁷ / ₆₄ " 50cm x 57cm x 79cm
Weight	lb kg
Power Output	450.00 Watts
Power Input Type	Electric
Primary Power Input	220-240 V x 50 Hz x 1 PH
Energy Use	14.5 kWh/100lbs ice
Certifications	CE
